

PIN-CH® foot holder for sled base chair – curved wire/tube

PIN-SC

Horizontal foot holder for our flexible PIN-CH® system for curved tubes or wire, where the foot part is selected based on the surface and design. The foot holder is mounted with a screw, and the foot part clicks into the foot holder and can be removed using, for example, a screwdriver. Ideal for sled chairs and other furniture with horizontal tubes or wire.

Note: *Install using screws with a flat underside on the screw head.*

Used together with **PIN-CHSC** and **PIN-CHSCF**.

The PIN-CH® system is designed to make it easy to replace the foot part when it becomes worn or when moving a piece of furniture to a different surface. The components are marked to make it easier to find replacement parts.

rPA = Recycled
