

PIN-CH® foot holder for cantilever – horizontal curved tube

PIN-SR

Horizontal foot holder for our flexible PIN-CH® system for curved tubes, where you choose the foot part depending on floor surface and furniture design. The foot holder is mounted onto the tube and fastened with screws. The foot part is mounted in the foot holder with a click and removed with, for example, a screwdriver. Suitable for school chairs and other types of furniture with horizontal tubes.

Note: *To be assembled with flat head screws.*

Used together with **PIN-CHSR** and **PIN-CHSRF**.

The PIN-CH® system is based on being able to easily replace the foot part when it is worn out or when moving a piece of furniture to a different surface. The components are marked to make it easier to find new parts.
